

Dear Ladies and Gentlemen

ADPOL is a Polish manufacturer of wooden and wooden-aluminium windows, prefabricated houses and acoustic screens. More than 25 years of experience guarantee the highest quality. Our continued development and introduction of new products has resulted in the broadest range of windows and doors on the Polish market. Our current offer is presented on webpages: www.adpoltrade.com and www.adpol.pl.

ADPOL has recently introduced an innovative solution for double-hung and outward-opening casement windows. Wooden-aluminum windows, respectively **AluClad SASH** and **AluClad CASEMENT** are now available for all our clients. We are the first manufacturer in Poland and one of the few in Europe who are offering double-hung SASH windows with aluminium cladding construction - **AluClad SASH**. Our **AluClad SASH** system comes in three types:

- a) with weighted balance **AluClad SASH W**;
- b) spring balance **AluClad SASH S**;
- c) tilt and slide spring balance **AluClad SASH ST**.

Optionally, ADPOL can install triple glazing in both the **AluClad CASEMENT** and **AluClad SASH** windows, which allows us to accomplish an outstanding thermal insulation for the whole construction $-0,8 \text{ W/m}^2\text{K} < U_w < 1,3 \text{ W/m}^2\text{K}$. The use of aluminum overlay extends the life of the window and does not require coating maintenance. **We provide a 10-year warranty for all of our wooden-aluminum windows.**

To celebrate the introduction of our new products, **AluClad SASH** and **AluClad CASEMENT** windows are offered in promotional prices until 05/31/2015. For more information, please contact our sales department.

We also invite you to visit our website - www.adpoltrade.com and familiarize yourself with the full range of our wooden windows, wooden-aluminum windows, acoustic, burglar proof and energy efficient windows, bi-fold and sliding doors, entrance doors, conservatories, facades, prefabricated houses and acoustic screens.

Best regards
